PROFESSIONAL SUMMARY

Information Systems graduate with hands-on experience in frontend development, software testing, and UI/UX design. Proficient in building web applications using React, Next.js, and Tailwind CSS, with practical exposure to full-stack development through real-world project work. Experienced in manual testing, bug documentation, and cross-functional collaboration. Quick learner adaptable to a variety of technical roles in web development and QA.

AREA OF EXPERTISE

- **Frontend Development:** React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Bootstrap, HTML, CSS
- **Backend & Databases:** Node.js, REST APIs, CRUD operations, MySQL, Microsoft SQL Server
- **Programming Languages:** JavaScript, TypeScript, C# (intermediate), Java (basic), Kotlin (basic)
- **Testing & QA:** Manual Testing, Functional Testing, Regression Testing, Test Case Documentation, Bug Reporting, Cypress, Selenium, JMeter
- **Productivity & Office:** Microsoft Word, Excel, PowerPoint
- **Tools & Platforms:** Figma, WordPress, Git/GitHub, Postman

PROFESSIONAL EXPERIENCE

Chimes Consulting, Manila, Philippines

Jan 2024 – Apr 2024

Quality Assurance Analyst (Internship)

- Performed manual functional and UI testing on web applications, identifying and documenting bugs and inconsistencies to support development teams.
- Designed and executed test cases covering functional and regression scenarios, ensuring product quality prior to release.
- Maintained website content and UI through WordPress CMS, and reported findings directly to developers in team meetings.

Chimes Consulting, Manila, Philippines

Jan 2024 – Apr 2024

UI/UX Designer (Internship)

- Designed high-fidelity wireframes and interactive prototypes in Figma for web and mobile apps, ensuring intuitive user flows and developer handoff readiness.
- Led a team of interns on a UI/UX project, presenting design work to stakeholders and collaborating with developers during implementation.

PROJECTS

UpKyp — Property Management SaaS Platform

Jan 2025 – Mar 2026

Frontend Developer | Startup Project

- Built a property management platform for Filipino landlords using React, Next.js, TypeScript, and Tailwind CSS.
- Developed CRUD functionality via Next.js API routes and implemented a guided onboarding system across 80+ steps.
- Handled all frontend development and UI/UX design, working closely with the team to ship a full-featured SaaS product.

EDUCATION

Bachelor of Science in Information Systems

Sept 2020 – Apr 2025

De La Salle-College of Saint Benilde

- GPA: 3.1 | Specialized in Information Security | Dean's List, 3 Consecutive Terms | Plaque of Recognition
- Capstone: "Enhancing Landlord-Tenant Interaction Through Digital Solutions for Efficient Property Management"

CERTIFICATIONS

- Cypress UI Automation Testing for Absolute Beginners — Coursera (Nov 2025)
- Foundations of Software Testing and Validation — University of Leeds (Nov 2025)
- Introduction to Software Development — Amazon (Nov 2025)
- Capture The Flag – Hackathon — De La Salle-College of Saint Benilde (Jul 2023)
